**Service****Electric Vehicle Charger Stations – Description**

---

There are 6 electric vehicle charging stations located in the parking area of the Kilometro Rosso campus.

The available charging stations include 10 units of 22 kW and 2 units of 60 kW, equipped with Type 2 or CCS Combo 2 charging plugs.

Each station allows two cars to be charged simultaneously.

You can access the charging service using the "Plenitude On the Road" app, which is available on the [App Store](#) and [Play Store](#).

After downloading the app, to activate the service, you will need to:

- Create a profile
- Enter your vehicle details
- Add a valid payment method

After completing the preliminary registration steps, you can proceed with charging your vehicle:

- In the "Explore" section, find and select the desired charging station;
- Once the charging station is selected, you can check the charging price and follow the navigator to reach the selected station;
- Select the available charging plug;
- Press the "START CHARGING" button to begin the process;
- Press the "STOP CHARGING" button to end the process;

For more information about the terms and conditions of the service, costs, and valid payment methods, please visit the website [Mobilita Elettrica, Colonnine e Soluzioni di Ricarica | Eni Plenitude](#)
